

CAN-AOUT4 v2.x

Technical specifications

Analogue outputs

Number of outputs: 4 (voltage or current selectable via micro switch)

Voltage: 0 to 10V DC

Current: 0 to 20mA

Resolution: 12 bit

Infineon C505CA

Processor

TCAN I/O (Terberg CAN for inputs and/or outputs)

CAN interface

Power, Run, CAN with LED's

Status indications

Power supply

24V DC (16 to 30V DC)

Power consumption

60mA at 24V DC

EMC directive 89/336/EEC

EN61000-6-2 and EN61000-6-4

Operating temperature

-20°C to +60°C (with no icing or condensing)

Connector

Type: Terminal block

Wire range: 2.5mm²

Torque: 0.45Nm

Screw: M2.5

Housing

Carrier module for 35mm DIN-rail mounting

Dimensions (L x W x H)

87 x 64 x 53mm

Order information

CAN-AOUT4 v2.0

38 80 50 09 20
